We find in the Northern papers the correspondence between Mr. HULSEMAN, the Austrian Charge and Mr. Marcy, the American Secretary of State, in regard to the Koszta affair. The concluding paragraph of the Austrian letter is as follows:

The imperial government entertains too high an opinion of the sense of justice and of integrity of the government of the United States to doubt for a single instant its anxiety to disavow the conduct of its agents, under the circumstances above mentioned, and that it will hasten to call them to a severe account, and tender to Austria a satisfaction proportionate to the magnitude of the outrage.

The position of the United States, as assumed by Mr. Marcy, may be fully understood from the closing paragraph of his reply, in which he says:

The husband leaped in first, but after a while, being a capital swimmer, he raised his head above water, and perceived his wife standing quietly on the bank, watching him. He began abusing her, and said that, according to their convention, she ought to drown herself. Instead, however, of complying, she accused him of intending to let her drown whilst he saved himself by swimming. He called on her to plunge in at once, without any more talk; but she refused. Thereupon he got out of the water and gave her a tremendous thrashing. Some persons, who came up, went to seek the guard, and the loving pair were arrested. On being questioned
